A NEW WORLD

FOR LOLA

A NEW WORLD FOR LOLA.

It is the year 2023, and in a faraway galaxy, there is a spectacular planet called **Manda**. They just discovered that a big meteor is heading their way, causing mass destruction and possibly also bringing the planet's inhabitants to extinction.

Panic ran through the planet, as all the people decided to leave and travel through time and space to save themselves and find a new home. This is the story of one of the families.....

TASK 1

Choose a character and dress up as explained in the character description. Take pictures of characters and send them to naxxarsecondaryhub@gmail.com

After travelling for thousands of light years, the family Borg zoomed through a black hole into our galaxy. They navigated through the stars and hopped from planet to planet, until finally, they saw a beautiful island in the middle of the Mediterranean sea.

This island was called Malta, and they chose this country as the place where they want to live.

The family Borg land their space ship at the Malta International Airport in Gudja, and are ready to start their new life.....

However..... they encounter their first problem, they do not have the right documents to pass through the gates, so they are stuck at the airport.

In order to be able to stay in this country they have to ask for permission from the Prime Minister. But where is his office? How do they get there?

Will you help them escape the airport and make their way to the Prime Minister's office?

Hint

To leave the airport, you need to open the next level (2) by keying a six-number digit which can be found on the third page. (It is not as obvious as you might think).
